ULTRA-HIGH PERFORMANCE

STEERINGACE SUMMER

An ultra-high performance summer sport tire

- V type tread with four longitudinal grooves designed to resist hydroplaning
- Advanced silica nanotechnology improves handling and braking on wet and dry roads
- Continuous center rib crafted for an on-line center feel
- Large block shoulder tread provides improved dry traction against higher cornering G forces
- Vehicle Applications: BMW 330Ci and 330i, Audi A3 with sport package, Genesis 2.0T Coupe, Mercedes Benz C-E & SL class, Mitsubishi Lancer Evolution, Acura NSX, Lexus IS 350

STEERINGACE A/S

An ultra-high performance all season tire

- Asymmetrical tread constructed for high-speed cornering stability
- Four circumferential grooves maximize wet traction
- Advanced silica nanotechnology constructed for optimal dry, wet and light snow traction
- Rim Protector protects expensive wheels from curb scuffs
- Benefits: comfort and low noise
- Vehicle Applications: Mercedes E350, E550, Volvo S80, Porsche Boxster, VW Tiguan 2.0T, Hyundai Elantra GLS, Lexus IS350, BMW 525i & 525 xi, MX Miata Grand Touring, Audi A4 2.0T, A3 2.0T

HIGH PERFORMANCE

PRECISIONACE A/S

A high performance all-season tire

- Symmetrical tread increases dry, wet and light snow traction
- Four circumferential grooves maximize wet traction
- Computer-optimized tread design constructed for a quiet and comfortable ride
- Benefits: comfort and low noise
- Vehicle Applications: Ford Fiesta, Ford Fusion, Toyota Avalon, Honda Accord, Mazda 6, Acura RSX
- Warranty: 60,000 mile limited

TOURING

TOURINGACE

A premium ECO all-season touring tire

- Eco tread reduces rolling resistance to improve fuel efficiency
- Four circumferential grooves maximize wet traction
- Wide shoulder block designed for long mileage, cornering and braking
- Benefits: low noise
- Vehicle Applications: Acura TL and Integra, Toyota Camry, Mazda 6, Ford Fusion, Chevy Malibu, Dodge Caravan, Ford Windstar
- Warranty: 70,000 mile limited

GREENACE

An economical all-season tire

- Produced in 13" and 14" sizes
- Reinforced shoulder area improves stability
- Computer-optimized tread pattern provides longer mileage
- Well-siped tread with four circumferential grooves constructed for optimal wet handling
- Continuous center rib crafted for an on-line center feel
- Vehicle Applications: Hyundai Accent, Honda Civic, Saturn Ion-1, Toyota Yaris, Kia Rio

AEOLUS FULL PRODUCT LINE

CAR/VAN WINTER

SNOWACE (AW02)

A mud and snow winter tire

- Wide tread grooves provide excellent grip in winter conditions with hard-packed snow
- 3D Kurf-Lamella technology constructed for traction on cold and snow-covered roads
- Continuous center rib crafted for an on-line center feel
- Meets severe snow service requirements of RMA and EU standards
- Benefits: comfort and low noise
- Vehicle Applications: Designed for a wide range of Touring and High Performance vehicles in T- and H-speed ratings.

SNOWACE (AW03)

A mud and snow winter tire

- Wide tread grooves provide excellent grip in winter conditions with hard-packed snow
- 3D Kurf-Lamella technology constructed for traction on cold and snow-covered roads
- Continuous center rib crafted for an on-line center feel
- Meets severe snow service requirements of RMA and EU standards
- Benefits: comfort and low noise
- Vehicle Applications: Designed for a wide range of High Performance and Ultra-High Performance vehicles in H- and V-speed ratings.

ICECHALLENGER

A studdable winter tire

- Engineered for maximum traction in severe weather
- Wide tread grooves provide excellent grip in winter conditions with hard-packed snow
- 3D Kurf-Lamella technology constructed for traction on cold and snow-covered roads
- Continuous center rib crafted for an on-line center feel
- Meets severe snow service requirements of RMA and EU standards
- Benefits: comfort and low noise
- Vehicle Applications: Designed for a wide range of High Performance and Ultra-High Performance vehicles in H- and V-speed ratings.

LIGHT TRUCK/CUV/SUV

CROSSAGE H/T

An all-season highway terrain light truck tire

- Symmetrical tread enhances stability and traction in all weather conditions
- Four circumferential grooves maximize wet traction
- High density zig-zag siping developed for wet and light snow traction
- Continuous center rib crafted for an on-line center feel
- Benefits: comfort and low noise
- Vehicle Applications: Honda CR-V, Hyundai Santa Fe, Kia Sedona, Ford Econoline Van, Ford F-250, Chevy Silverado

CROSSAGE A/T

An all-terrain light truck tire engineered to deliver high mileage for on/off road driving conditions.

- Tread constructed with lateral sipes to maximize traction in wet, mud and snow conditions
- High density zig-zag siping for wet and light snow traction
- Cut-and chip-resistant tread compound
- Vehicle Applications: SUVs and Light Trucks
